

Walkability Audit
Sundial
153 2nd Avenue North
St. Petersburg, FL 33701

Team Lester

- Janell Damato
- Christine Diaz-Pagan
- Mike Wright

Site Summary

- The Sundial St. Pete Shops
- The Sundial St. Pete Shopping center is a two story complex with a parking garage that is accessible for pedestrians to walk safely to the shops and the surrounding area.

Features of Each Segment

- The only issues noticed that could be a hazard to pedestrians were Disabled parking on-street spaces with no accessible ramps unless the person walked back a few feet 6-7 to the crosswalk with accessible ramps.

- Third Street did not have bus stops. All other connectivity was fine.

- The only accessibility issue was the one we mentioned in an earlier slide concerning the ramps not being in place for the on-street parking spaces.

- There was one issue on 3rd that had construction beginning on a lot. There was silt fencing with small posts. However, it did not block the sidewalk.

- There are many recreational potentials.
 - Bike Racks and bike lanes
 - Bus and trolley stops on most streets around the Sundial St. Pete shops.
 - Movie theatre
 - Bike Shares
